

Dilawer Dudhwala – Web/Multimedia Creative and Designer. **Mobile:** +44 (0)7983 531 286

Email: dee@ddee.co.uk **Portfolio Website:** www.ddee.co.uk

PROFILE

I am perceived as an enthusiastic and determined individual, always willing to learn new technologies and develop innovative ideas. I am reliable and desire to excel myself in problem solving with the persistence of seeing it through. I have always had an eye for detail and my meticulous nature positively reflects in the quality of work I produce.

My multimedia skills have enabled me to grow in areas of web design using applications such as Dreamweaver, Fireworks, Photoshop, Flash and Illustrator along the way. Over the years I have become skilled in developing web pages using these applications whilst coding using XHTML, CSS and JavaScript. I have a number of years experience in producing creative branding both for web and print.

I am experienced and competent in cross browser compatibility and tackling cross platform bugs/issues and as a result my work is tested thoroughly to provide a seamless experience for all types of end users.

My experience includes working with developers and converting development sites into aesthetically pleasing web pages. In addition to this I also produce material for presentations, client briefs and showcases using applications such as Flash and video editing software such as Adobe Premiere.

Secondary Education: Beardwood High School

9 GCSE's

WORKING EXPERIENCE

Promethean Plc: Lower Phillips Rd, Blackburn, Lancashire, BB1 5TS

Front End Web Developer, Dec 2007 – May 2010

Responsibilities & Duties: Primarily working with in house projects and custom CMS systems. Offering day to day web development support. My task entailed designing and developing solutions for internal staff and teams. I was responsible for publishing web content via a CMS system – working closely with in house web developers.

My wide range of duties also involved the conversion of video files and media for web use. Designing for both the internet and company intranet sites as well as numerous micro sites, styling and customising within corporate brand. Here I extended my skill sets within PHP, XHTML, XML, and XSLT as well CSS. More recently the systems were migrated to a .net platform allowing me to further expand on my skills and experience whilst working with Visual Studio. Being the only front end web developer in the Promethean Planet team I undertook the majority of cross-browser testing and cross platform testing.

Epamea Ltd: Calf Hall, Barnoldswick, Lancashire, BB18 5PX

Creative Web Designer, July 04 2004 – Dec 2007

Responsibilities & Duties: This role has helped me achieve a greater understanding and learning of HTML, XHTML sites conjoined with ASP.NET development. I have undertaken branding and often re-branding of sites using CSS and hand coding. On a daily basis I make use of Macromedia Dreamweaver, Fireworks and Photoshop to construct and design web pages and online material. I have good knowledge and understanding of web standards and designing for cross-browser compatibility. In addition to this I have had some experience in designing with web accessibility as a priority. I have also completed a number of projects designing in flash with the use of Actionscripting and also with the type of work I have done, with epamea I keep a keen interest in video editing and screen animation technology. At epamea I have been introduced to applications such Macromedia Captivate & Contribute which I have become competent in using on a regular basis.

Centurion Leeds: Manston Lane, Cross Gates, Leeds, LS15 8AH

Multimedia Assistant, Dec 08 2003 – July 04 2004

Responsibilities & Duties: My employment at Centurion was used mainly as a learning ground in the commercial industry. Here I first started using content managed websites and became comfortable using applications within the Macromedia MX 2004 suite. My main duties included updating live sites and maintaining websites with latest news. In addition to this I also introduced to the company their first intranet site which was designed, administered and maintained solely by me.

ebusinessUK: Greenbank Technology Park, Blackburn, Lancashire, BB1 5QB

Junior Web Designer, Sept 29 2001 – Aug 30 2002

Responsibilities & Duties: The duration of my placement year was spent at a local e-business firm with a proven track record in governmental organisations and companies alike. My role as junior was to design micro sites, update and maintain content for on-going projects. I often got involved in client meetings and built up a design specification for them accordingly. At this placement I also had the opportunity to learn about search engine technologies and also understood and implemented web & search optimisation.
